

STRAPPING TAPE AND STAND

The Geco Tape Stands, manufactured by Powerhowse Electric, is for dispensing strapping tape, coming complete with a feeder and brake. The frame is fabricated from steel in our Auckland Factory and then electroplated for protection.

The strapping tape is often used as a Drawline for new Ducting. To Load it into the Tape Stand, unscrew the spool, fit the tape in and feed it through the guide. This allows the brake to work. These stands will hold a 1000m x 12mm or 19mm strapping tape.

Tape Stand

Tape Stand w/Wheels

CODE	DESCRIPTION	DIMENSIONS L x W x D	WEIGHT
30032	19mm x 1000m Grey Tape	450 x 120 x 120	10.8kgs
