

REAL JACKS™

EASY AND CONVENIENT WIRE FEEDING

iTOOLco.

Closed head traps axle preventing it from falling out or traveling horizontally

Separate sides can be used safely on uneven ground

Axle-less on steel reel with 2" arbor holes

iTOOLco's Real Jacks™ make wire pulls run smooth and easy. These innovative jack stands have four 20,000 lb. sealed bearings that capture the axle to prevent reels from traveling during the pull. Best of all iTOOLco Real Jacks™ won't tip over.
