

## SPLIT DUCT ROLLER

The Split Duct Rollers are proudly manufactured by Powerhowse Electric, from cast aluminium and then powder coated to provide a clean finish. We have a range that suit 54mm to 150mm AU/NZ Conduit.

They are fitted with an aluminium roller and are used to protect your cable and hauling rope from rubbing against sharp edges at the exit of a duct/conduit, they also reduce friction and damage caused by Hauling Rope. The split allows the roller to be removed easily and re-used on other

**Note:** To get the best size for your job you will need to know the Internal Diameter (ID) of your Duct/Conduit, this will determine which Bellmouth Roller to use by its Outside Diameter (NECK OD)

CODE	DESCRIPTION	NECK OD	NECK ID	DIMENSIONS L x W x D	WEIGHT
30016	54mm Split Duct Roller	55mm	43mm	180 x 150 x 150	1.4kgs
